Organizes Church On 78th Birthday

Rev. J. Frank Anderson, former pastor of Tinley Park and the Mokena Methodist churches recently celebrated his 78th birthday in a very special way. On that day, ceremonies were held which formed a Methodist church with 40 charter members in Nelson, Ill., neighboring village of Harmon, present pastorate of Rev. Anderson. Dr. Paul Benedict, district superintendent was present at the first service held in the Town hall.

Rev. Anderson became interested in the village of Nelson, and upon inquiry found many people of his faith and no church home for them. Thus he organized this charter group which is now being officially recognized by the Church conference.

Rev. Anderson is a "supply pastor" for the Methodist church and has been preaching for 55 years. He said he should have retired many years ago, but that "he'll go on preaching and do what he can to spread the gospel."

A fire of undetermined origin early Saturday morning completely destroyed a barn, valued at \$30,000 and a corn crib rented by Dr. Louis Webb, New Lenox veterinarian, on the former Roy Newton farm one mile west and one mile north of Mokena.

Lost in the blaze was \$6,000 in livestock, including 20 head of cattle, 31 pigs and three sows and 16 sheep. About 22 head of cattle were saved. The barn contained 1,400 bales of hay and the corncrib 1,000 bushels of corn. The silo also was damaged.

Louis Badten, who rents the house, noticed the fire when his dog began barking and growling, and summoned neighbors. The Mokena and New Lenox Fire departments also came but were unable to save the building. Arthur Buske, one of the first to arrive, threw water on the house, which was badly scorched by the blaze. It was feared at first that nearby oil barrels would catch fire.

Dr. Webb, who has been renting the farm for the past year, said the cause probably was either lightning or a short circuit in the wiring. The cattle were covered by insurance, but not the hogs or sheep, he said.

Christian Science Churches
Victory over human limitations comes as we learn that man's true selfhood is spiritual, not material, and that he lives in Spirit, God, not in matter—this is a leading point in the Lesson-Sermon to be heard at Christian Science services Sunday.
In the Lesson-Sermon on the

subject of "Matter" the following Bible verses will be heard from Isaiah:
"Seek ye the Lord while he may be found, call ye upon him while he is near: Let the wicked forsake his way, and the unrighteous man his thoughts: and let him return unto the Lord and he will have mercy upon him; and to our God, for he will

abundantly pardon. For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord."
The following passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will also be read:
"The perfect Mind sends forth perfection, for God is Mind. Im perfect mortal mind sends forth

its own resemblances, of which the wise man said, 'All is vanity.'"
The Golden Text is from Isaiah: "The grass withereth, the flower fadeeth; but the word of our God shall stand for ever."

The Rural Department at Drew Seminary, Madison, New Jersey has compiled a list of a hundred games for use by church groups. This bulletin, which is being sent out upon request, tells the leader how to handle the crowd, how to get timid people to take part, what kind of games to play, how to teach a game, and how to make the games interesting. It also tells how to use these 100 games.

This bulletin is not for professional recreational directors but for local church leaders.

The world seems filled with war and hatred and suspicion. Churches are trying to teach peace and good will. Games and play under proper auspices help develop neighborliness and friendliness.

What's New—A textile company announces development of a thin nylon filter in tube shape which solves one of the problems doctors encounter in using artificial heart-lung machines during heart operations. The nylon filter has so many openings that if inserted in a vein in one of the limbs it will draw off all the blood needed. Hitherto it has been necessary to open one of the big veins near the heart.

Why value-wise buyers are swinging to Ford!

They are finding that Ford brings them everything they might want to meet modern tastes and requirements

You can't buy better! It's the stunning Customline Fordor Sedan.

Ford's the only low-priced car with all these "Worth More" features

Recognized leadership in styling

You can pay more but you'll never find a car that's more "at home" wherever you may drive it. For the smart new '54 Ford is as modern as tomorrow with the crisp, commanding lines of today's style leader. And it's just as smart inside! The sparkling new, decorator-designed interiors have colorful new upholstery fabrics and harmonizing trim that spell quality wherever you look.

Choice of most modern engines

Ford and Ford alone, in the low-price field, offers you a choice of V-8 or Six . . . the brilliant new 130-h.p. Y-block V-8 or the flashing new 115-h.p. I-block Six. Both Ford engines have rigid, extra-deep blocks for smoothest, quietest operation and extra-long life . . . plus the

savings and "GO" of modern, high-compression, short-stroke, low-friction design.

Ball-Joint Front Suspension

For the first time in any low-priced car, you get the smoother riding and easier handling of Ball-Joint Front Suspension—an advance you'd expect to find only in the costliest cars.

Choice of 5 power assists . . . including Fordomatic

Only Ford in the low-price field offers power on all four windows . . . a 4-way power seat which adjusts up and down as well as forward and back. Power steering, power brakes and versatile Fordomatic Drive are also available—and they make your fine Ford even more fun to drive.

Choice of 28 new models

With fourteen stunning body styles available with either of Ford's new engines, Ford offers a car to suit every taste and need. In fact, for '54, Ford offers the widest selection of models in the entire industry!

Top value at resale

Used car prices show that in recent years Ford has consistently returned a higher proportion of its original cost at resale than any other car. And for 1954, with all its advanced new features, Ford is worth even more when you buy it . . . and it stands to reason it should be worth more when you sell it, too.

We cordially invite you to

Grade School Cage Meet Opens With Mokena Victory

The first annual New Lenox grade school tournament opened with an exciting 22 to 20 victory at Mokena over Frankfort. The win advances Mokena to the finals against host New Lenox which beat Troy in opening night play.

The Mokena victory was a fourth consecutive win. The team has been playing its best basketball during the final weeks of the season.

The game was closer than expected, since Mokena has two previous triumphs over Frankfort. Frankfort, however, played hard and never trailed by more than five points at any time in the game. High scoring Richard DeForest was held to 7 by Frankfort but Ted Dunham contributed 2 important baskets and Don Lehman one basket and a free throw as Mokena held off a late rally by the losers.

A last shot by Frankfort missed and Mokena controlled the ball the remaining seconds to insure a place in the finals.

The tournament reached an exciting climax Saturday when the championship game went into an overtime before New Lenox was able to subdue a fighting Mokena ball club 41 to 32. At the end of the regulation game the score was tied at 30 all. In the three minute overtime period the New Lenox team burned the nets for 11 points while Mokena was able to muster only two.

In the battle for third place, Frankfort downed Troy 36 to 25. The scrappy Troy ball club, handicapped by a great height disadvantage, forced the Frankfort team to play one of their best ball games of the season.

What won't these bowlers try next? First they try red socks, then bright shirts, and now one team decided to try wearing colored glasses. Can't say it helped much to as Goebel's lost 12 to Lehmann Bros. (could be it helped Lehmann's for their sponsor to pay the sponsor fee.) Goebel's team have decided that they now have slipped to the sub-cellar. Vogt's are still trying to catch them as they took a double defeat from INR and Bremen State seemed to freeze at meeting the leaders, as H&S Feed took 2 games from them. Hot-shots for the evening were Chuck Schanz with 201-540, Wally Goebel with 530, Jim Darby with 235-524, Earl Schafer with 522, Eric Naseband with 521 and Bud Diekmann with 504.

The regular meeting of the Maue PTA was held in the school March 10. At the election of officers Mrs. Charles Henning was named president; Mrs. Chester Williams, first vice president; Mrs. Raymond Kniernien, second vice president; Mrs. Owen Maue, secretary; and Mrs. Harwood Stellwagen, treasurer. Mrs. Helen Lembke, school principal, continues as third vice president. Mrs. MacDougall, former health nurse now serving in an advisory capacity, talked on "The School Health Program" and gave a visual demonstration. Since the shortage of public health personnel has become so acute the part PTA mothers are taking in carrying out this program is becoming increasingly important, she said.

With some preliminary instruction, PTA health chairman frequently do nearly all of the visual tests as did Mrs. Roy Walker, assisted by her sister, Mrs. Deen Taylor, at Maue school recently. Much credit is due these mothers who are contributing so generously of their time. Mrs. MacDougall stated, however, that the County health nurse rechecks all tests where chairman have found visual aid indicated. Refreshments were served during the social hour.

Because Dr. Dissant's time is limited, Maue school children will receive immunizations in the Doctor school, March 26. Parents will drive the children to and from school.

Mrs. Helen Lembke, Maue school principal, attended the South Suburban Teachers' book exhibit at Calumet City, Wednesday.

Children of Maue school enjoyed a holiday Monday because of a teachers' meeting at the new Palos grade school.

Because of errors in printing three items from last weeks issue are being reprinted: School was dismissed at 1 p. m. March 5, because of a teachers meeting. Ice and heavy snow fall caused the car Mrs. Deen Taylor was driving while enroute to the home of her parents. Mr. and Mrs. Garrett Cummings, March 2 to skip off the road into a ditch. There was some damage to the car but the occupants were uninjured.

A daughter was born to Mr. and Mrs. Robert Fandrey in Hinsdale hospital, March 5. She weighed six pounds, two ounces, and has been named Linda Louise. The Fandreys have three

other children, Roberta, Ronald and Susan.

Roberta and Ronald Fandrey have been absent from school because of illness.

Mrs. Chester Williams attended the meeting of the Orland Park PTA in the school Wednesday evening. The feature was a play by four members of the Dramatic club.

Mr. and Mrs. Charles Henning and family have moved in a new home nearer Mokena on Wolf rd. Carla Mrosek visited with her grandparents, Mr. and Mrs. Gust Mrosek, in Chicago over the week end.

It is all right for old residents to go to Florida for a vacation and come back feeling refreshed, but when those same residents come back and talk about returning to Florida to live, as Mrs. Charles Albert did, it's just plain treason.

The many who have been asking, "When will we have another square dance?" will be happy to know that Robert Laing, Orland Park, will again give free instruction at Maue school, Friday evening March 26. Instruction is being sponsored by the PTA.

THE TELETAG IDENTIFICATION PLAN

Leading civic groups and welfare
organizations endorse this
fast, easy method of identification

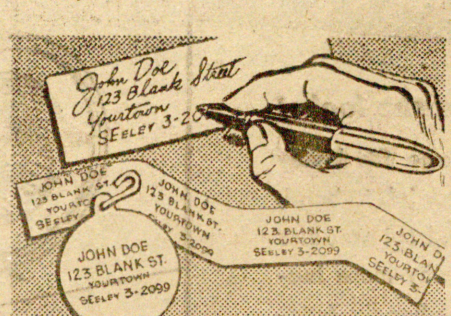

Any parent whose child has ever been lost—anyone who has ever lost a hat, umbrella, brief case or other personal property—will welcome the Teletag Identification Plan. It fulfills a need that has long been recognized by police departments, schools, doctors, hospitals, parents, teachers, civil defense and many other organizations.

What the Teletag Plan is. A simple, yet practical idea that a telephone number is a key item of personal identification. Teletagging clothing and personal belongings is a quick, positive means of identification for lost articles—or even people.

A telephone number as part of the identification—

- Speeds the return of strayed or lost children
- Makes it easy for the finder to return lost property
- Gives faster identification in case of sudden illness or accident
- Saves time and lives when quick identification is needed
- Eliminates any confusion between similar names and addresses

What is a teletag? A teletag is as simple as you want to make it. It means putting your telephone number on personal belongings and, if you wish, your name and address. Maybe it's written in indelible ink on clothing, or painted on a child's wagon. There are many ways to teletag—a rubber stamp, printed or woven name tapes, metal tags, etc. Choose the method which best suits your needs.

Teletags often include name and address, but—and this is most important—they always include a telephone number. If a child is lost or if a person is

injured, a telephone call is usually the first step required for fast action.

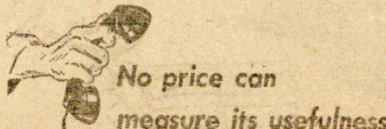

What to do. Many suppliers of identifying devices have recognized the importance of the telephone number for identification purposes and are now prepared to furnish teletags or the materials to make them. The next time you are shopping, ask for them. Put them on your children's clothing, on gloves, rubbers, umbrellas, books, glasses case, brief cases, luggage—on everything that you carry around or wear that may get lost. Don't forget cameras, sports equipment, or garden tools that you lend to neighbors. And by all means, put teletags on bicycles, tricycles, wagons and toys that may be left all over the neighborhood. The identification card in your wallet should carry your telephone number, too. It will save you time, trouble, worry and money.

By using teletags, you will recover lost articles and strayed children sooner. Another way your telephone can be of even more value to you!

The following organizations are among those endorsing the teletag idea:

ILLINOIS ASSOCIATION OF CHIEFS OF POLICE, INC. GREATER CHICAGO SAFETY COUNCIL
STATE OF ILLINOIS CIVIL DEFENSE AGENCY CHICAGO CIVIL DEFENSE CORPS
